

# Free Training for Residential HVAC Installers

Free breakfast  
for those that  
RSVP

\*Dates & location below

## For: HVAC installers, contractors & code officials

The mechanical code requires the use of manuals J, S & D. Flex duct manufacturers have specific installation instructions. These items and more must come together for an efficient & effective HVAC system.

The training session & breakfast are free for all attendees. The training will focus on:

- ▶ Residential code compliant HVAC installation
- ▶ HVAC best practices
- ▶ Flex duct installation
- ▶ Other code & comfort considerations

*\*\*Presentation slides have subtitles in Spanish*

## Meet the Trainer

### Jason Vandever

Jason is Energy Code Program Manager for the South-Central Partnership for Energy Efficiency as a Resource (SPEER). He is the son of a carpenter who grew up spending his summers working on framing crews in the Dallas area. He has more than 18 years combined experience in building construction and inspection. Prior to joining SPEER, Jason was the Chief Building Official for the City of Granbury. He maintains nine ICC certifications and is a Certified Building Official.
